SEA JAY
ALUMINIUM BOATS

Commitment

Sea Jay bring their product to you with personal pride and trust you will enjoy many memorable moments on some of the best waterways this country has to offer. Only the highest quality marine grade aluminium and components are used to construct one of the most robust range of boats with a quality of finish enviable of other brands on the market today.

What a better way to relax by GETTING AMONGST IT in a quality Sea Jay Aluminium Boat you can rely on and trust.

Boating has always played a major part in their family life spanning many years. Both Col and Janelle have been proactive in many aspects of boating including recreational fishing, tournament fishing (for the mighty Barra), water skiing and boat racing. Manufacturing aluminium boats became a natural progression into the boating industry although they never dreamed their "Sea Jay Aluminium Boats" brand would one day become a house hold name throughout Australia.

Joining his parents with their passion Troy Glass became an employee of the company in 1999. Completing his apprenticeship within the industry, Troy soon put his theoretical and practical knowledge to good use and became the manager of research and development. In 2010, Troy became a part owner of Sea Jay Boats further strengthening the family values associated within the company.

Constantly growing since its inception, the Sea Jay Boats factory now covers 7,000m² and with 2,280m² under roof, provides the necessary room to build Sea Jay's pressed and plate range of aluminium boats.

Sea Jay Aluminium Boats is a family company founded by Col and Janelle Glass in 1989.

When Buying a Boat

Purchasing a new boat should be a time of excitement and anticipation. Every one is unique and has a range of wants and needs influencing the type of vessel most suited to them. If you have been involved in boating for numerous years you will be familiar with its many aspects and have a good idea on the specifications you are after.

However, if this is your first time purchasing a boat we would like to offer some basic advice to think about.

The very first thing to consider is what marine environment you are planning to use your new boat in. Will you be fishing lakes and impoundments? Maybe creeks and estuaries? Or perhaps offshore? The type of activities you plan to partake in also play an equally important role in the design and layout of the model you will choose. For instance, flicking lures will require a different layout than if you're objective is bottom fishing or just a day on the water.

Engine requirements also play an important part in your boat choice. Most boat manufacturers will usually list a recommended minimum and maximum horsepower rating as well as engine weight on each model of boat. While you can not legally exceed the maximum horsepower rating, under powering a boat can also be detrimental to overall performance and safety. Some factors to take into account are as follows:-

- Weight of the boat
- Amount of fuel onboard
- How many people onboard
- Weight of accessories
- Distance to and from destination

Hull performance can be spoilt by an incorrectly fitted or trimmed engine. If you are new to boating and have had little experience with outboard engines, your dealer will guide you with the correct engine transom position and explain about motor trimming. In this instance going for a water test is also strongly advisable.

While the model and engine horsepower must be considered if you intend to carry a big load, how the load is distributed is equally important. Too much weight in one area may

compromise the boats performance and safety on the water.

Choosing a new trailer is just as significant as choosing a suitable boat and engine. The specifications of a trailer can vary considerably but should be able to accommodate the weight of the boat, engine, a full tank of fuel and any other equipment that would normally be brought along. Incorrect trailer set up is one of the major causes of boat damage, so it is important when deciding on a trailer to consider several factors:-

- The distance you will be traveling
- The type of road surface you will be towing on
- Where the boat will be launched
- Vehicle towing capacity
- Hull type (e.g. Pressed or Plate bottoms)
- Hull weight

Remember, do not be afraid to ask questions, it is crucial that you are happy with all information sourced, after all this is your dream purchase so it is important to purchase wisely. Another hint for those new to boating or even if you wish to be up to date with current boating guidelines, is to obtain a Transport Department Marine Safety Hand book, so as to always play safe on our waterways.

We hope the information we have provided helps you along in your decision process when purchasing a new boat or boat package. Boating is a terrific past time that can be enjoyed by all ages and purchasing a new boat should definitely be part of it.

Hope to see you on the water soon.....

Happy Boating!

SEA JAY ADVANTAGE

With over 70 models to choose from ranging in size from 3.15m to 6.3m Sea Jay has models to cover all boating enthusiasts. Our boats are made to the highest level of workmanship and come with Quality fittings and various options. Due to the quality of build you can also rest assured that with Sea Jay you are buying a boat that not only looks good but also has great Stability and Performance. High side and wide beams are available ensuring strength, protection and the all important space you require. Whether you are newbie to the water ways, a seasoned pro, expert fisherman or recreational boatie, Sea Jay will have a model for you. Models also available for the commercial sector.

QUALITY & WORKMANSHIP

- Quality and pride in workmanship is an important aspect of the manufacturing process.
- Sea Jay ensures employees build their product with the pride of workmanship they would expect in a boat of their own. This motto is carried through the entire manufacturing process.
- Sea Jay employees receive on the job training by qualified personal.
- A quality checking system is in place to check material and product at each stage throughout the manufacturing process. All attempts are made to provide a quality product to enter the market place.

Performance

ADRENALIN HULL

The Name Adrenalin Hull has been chosen to promote the features of this hull, as something that will give an "Adrenalin Rush". Whilst speed is not synonymous with fishing boats, the most horsepower available often is, together with a good performing hull.

DESIGN FEATURES

The Adrenalin model has a much broader beam which in turn gives more water displacement and hence enables the horsepower rating to be increased, together with the reverse chine

feature to enhance stability.

As with all our Sea Jay Models we strive for excellent riding and good stability – this has certainly been achieved with the Adrenalin Hull with the performance of this hull giving the ultimate "Adrenalin Rush".

With features outlined:

- Deeper V - Sharper Entry
- Wide Beam - Increase HP
- Excellent Ride - Great control when turning

SAMURAI HULL

DESIGNED WITH SAMURAI PRECISION

Designed with precision and accuracy using the latest 3D performance modelling software we are confident that our Samurai Hull delivers superior ride slicing through choppy water and planning efficiently requiring less horsepower

FASTER AND MORE EFFICIENT

The Samurai Hull is designed with increased rising deadrise forming a sharper entry improving the ride. The waterline width has been increased creating a larger surface area providing faster lift onto the plane and top end speeds. With A raised sheer line or swept bow the internal room in this hull has been increased providing higher safer sides.

LIKE A SAMURAI SWORD!

This new hull delivers a faster more economical performance and improved ride through its design specification, which includes our reverse chine. Slicing through choppy water, faster planning whilst providing optimal stability to fish at rest this boat boasts:

- Increased rising deadrise (sharper entry) – improved ride!
- Increased waterline width (greater planning surface area) – faster planning!
- Increased reverse chine – an even drier ride with maximum stability!
- Swept bow – increased depth of sides!

ULTIMATE EDGE TRANSOM

- Designed for Maximum Hull strength
- Handles (2) and (4) stroke engines
- High back motor well
- Utilizes space for storage
- Large boarding platform for easy entry
- Rear Rails for easy platform boarding

REVERSE CHINE

A Reverse chine is incorporated in Sea Jay models 4.48 and above, with five significance points of difference:

- Enhanced stability as rest
- Deeper V creating a smoother ride

- Quicker on plane with minimal power
- Optimal fuel efficiency achieved
- Superior performance in handling & tracking

RESEARCH & DEVELOPMENT

Our Research & Development department is responsible for innovations in products, design, construction and style. Completely managed at our factory, our R & D team are relentless in the pursuit of creating innovative new products to keep Sea Jay Aluminium Boats one step ahead of the competition. Some of the key elements focused on are as follows.

- New model research and advancement
- Source and incorporate new and innovative products
- Continual revision and enhancement of current models
- Refine and modernise production processes
- Acquire and learn new Technologies to improve hull design and function

DISCOVERY - V-NOSE

The DISCOVERY range of aluminium boats have been designed for the fishing enthusiast who desires more than just a tinnie. Standard with paint inside and out, this model is not only protected from the marine environment, but looks impressive as well. A rear casting platform provides a high vantage point to sight and flick lures at those elusive fish with a tank rack underneath for additional storage. With a plumbed live bait tank ready to keep your bait fish alive and well, the DISCOVERY range of aluminium boats will provide you with every chance of a successful day fishing.

MODIFIED DECKING

DISCOVERY SPORTS - V-NOSE

For an even greater fishing experience, the DISCOVERY SPORTS is equipped with a side console designed with the sports fisherman in mind. Low enough to avoid casting lines, the console is still large enough to accommodate modern electronics and to hide behind if the weather picks up. Fully upholstered folding seats add just a touch of comfort with seat positions aplenty. With an engine power rating of 10hp more than the Discovery, the DISCOVERY SPORTS will take you to your favourite spot with time to spare.

SWIFT - V-NOSE

Our SWIFT range of V Nose Punts are for the angler who wants more useable features than just a pair of thwart seats and a rope shelf that most traditional dinghies have to offer. A full carpeted floor with (5) floor sockets allows for greater seat positioning and combined with a raised casting platform, gives 360° of fishable area. To keep the floor clutter free, a tank rack is located under the casting platform with a CE certified fuel line running under the floor to the transom. Wide side decks are also a standard feature that provide maximum strength and functionality.

STEALTH - V-NOSE

Built for the avid sports angler, the Stealth offers a great fishing platform with large elevated casting decks with loads of storage space and incorporates the new Fish Deck Transom.

A wide body hull with high sides gives a greater internal volume on a stable platform.

The Stealth is ideally suited for in-shore bay and estuary fishing and is perfect for freshwater rivers and lakes. From bass to barra fishing and Murray Cod to Mangrove Jack work the Stealth has plenty to offer for a wide variety of applications.

For the latest & additional information on this model please visit www.seajay.com.au/stealth/ or scan the QR Code with your Smart Phone

ALLROUNDER - SPECIALTY OPEN BOATS

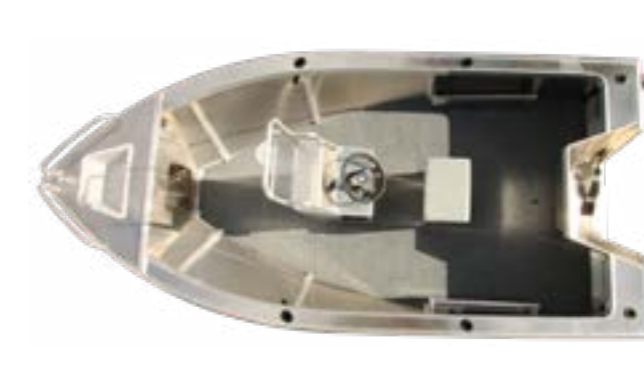

The versatile Allrounder is all new, and now supports features of the popular Adrenalin Hull. When trying to find a boat to suit many different estuary applications can be tough: however, our ALLROUNDER models have made this choice easy. A full open floor creates a copious amount of room that carries fishing and camping essentials. An anchorwell together with the new feature of a bulkhead and door, as well as long side pockets gives good storage options. A rear cast platform also provides a spot for fuel tanks and a battery. Topped off with wide side decks for strength (and a place to fit rod holders), many Seat pedestals positions and a rear step & rail for ease of entry. As the name says this is a real ALLROUNDER.

NAVIGATOR - CONSOLE

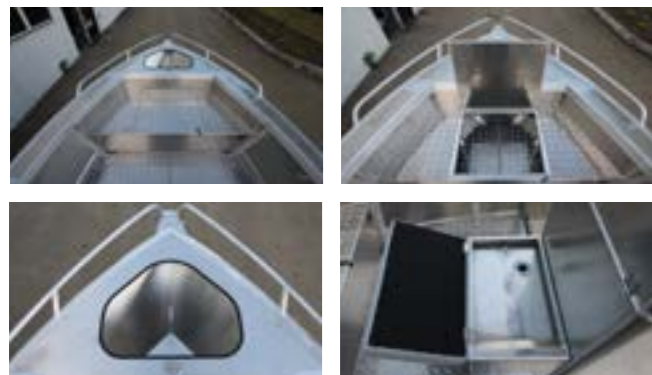

The Navigator features our new Adrenalin hull and designed for the fisherman, this model is standard unpainted, however paint is always an option, and fitted with just the necessary features to keep the cockpit open for ease of movement around the boat. An ideal model for fishing, crabbing or prawning, your opinions are endless. A seat / storage box is located behind the console for seating needs; this model also has a motorwell and wide side decks. An anchorwell & front bollard is positioned in the foredeck, plus side pockets for storage, and a rear step and rail for easy access, with more listed in our features section of this model.

TUFF-MATE - HEAVY DUTY CONSOLE

Looking for a good work boat, this hull is designed for you – if you are looking for maximum time on the water in a good rig, than this no nonsense model is a winner!! This hull is standard with a Plate 4mm Bottom and 3mm sides with a capped keel to boot. A checker plate floor makes for easy cleaning at the end of your trip, and the much asked for recall of the half pod and boarding steps with interior shelving gives maximum deck space. A folding Console positioned central with seating in front and behind the console is appealing to this market, especially with the driver seating position doubling up with the 108 litre ice box with upholstered lid, how practical!! Of course many more features to mention, so take a look over the features of the Tuff-Mate.

WANDERER - BOWRIDER

Explore new horizons in our bowrider style of boat, the Wanderer. The Wanderer comes standard with a carpeted front cockpit including a mid-section that can be installed and used as a full cast platform or if boating in comfort is more your style, you have the option of bunk cushions for comfortable seating. An optional folding rear lounge may also be fitted for additional seating. Stylish fibreglass dashes are included that one could be forgiven in thinking that they sitting behind the wheel of a car. Whether it be touring the waterways at your leisure or casually wetting a line, the Wanderer will always be ready to entertain.

SEEKER - RUNABOUT

For an entry level runabout with more than just basic features, you can't go past our Seeker range of aluminium boats. A carpeted floor forward of the rear thwart seat allows for easy movement around the craft with a drop down floor in the cockpit area creating welcomed leg room. An opening windscreen allows for simple access to the anchorwell and bollard tie off point while a full tank rack effortlessly holds a fuel tank and battery if need be. Seating comes in the form of standard folding upholstered pedestals with a rear thwart seat for additional passengers. The Seeker comes well equipped to make your boating experience a pleasant one.

CRUSADER - RUNABOUT

The Crusader runabout features latest swept bow configuration in a runabout giving a greater feeling of safety up the front of the boat and the soft ride of the Samurai Hull is a pleasure to feel. A walk through dash and screen allows for easy anchoring and fully upholstered swivel seats in the front and fully upholstered removable rear lounge with padded back rest gives the whole family a comfortable ride. The Crusader is a perfect mix of a roomy family boat with a good fishing platform.

AVENGER - SPECIALTY OPEN BOATS

The Avenger range has models to suit all; the Adrenalin Hull is featured on Avenger models 4.28 and up. Models 4.48 and up have 3mm bottoms and 3 mm sides with models 4.25 and 4.28 having 2.5mm sides. The adrenalin hull with a deeper V and wide beam also incorporates a reverse chine (no reverse chine applicable on the 4.28). These features give you an excellent ride; enhance stability, great control and optimal fuel efficiency.

All models feature front and rear cast platforms with hatches, electric motor plates are fitted off the front gunwhale, with a bow sprit and roller fitted on the front deck. A sounder mount and switch panel plate is fitted within the hull for electronic needs. Plenty of rod holders are on offer with 6 plastic holders fitted to the wide side decks. Seating is in the form of two full upholstered folding seats with five socket positions. Fuel tanks are fitted to models 4.48 and up, and all models are available either painted or non-painted.

RANGER - SPECIALTY HEAVY DUTY

Designed to handle all the "TUFF STUFF" the Ranger is well suited for the pro fisherman and die-hard anglers.

Available as a 4.4m with 3mm bottoms and reverse chine and the 4.6m Samurai hull model which features a swept bow, reverse chine and a 4mm bottom, with both models featuring 3mm sides.

With the checker plate floor and 5 seat positions the deck can be opened up to give you the

freedom to move comfortably about your boat as you reel in the big one! The Ranger is also available in an optional Ranger Sports model both 4.4 and 4.6 with a side console.

With the features of these two models, together with the size and strength they will certainly be able to get the job done.

VISION - CONSOLE

This model features the SAMURAI HULL, which features a raised sheer line (swept bow) and also incorporates our reverse chine. This streamline hull has been designed carefully to achieve the best performance possible. Testing this model was a unique experience as it sliced through the waves, due to the sharper entry improving the ride. The Vision is a traditional centre console with the ability to fit the optional T Top. The Vision is available in three hull lengths, so take a look over the listed specification and features for a good appreciation of this model.

VELOCITY - CONSOLE

The Velocity is another model in the SAMURAI HULL line up, with the sleek raised sheer line (swept bow) and reverse chine, this model has all the best qualities Sea Jay is known for. This model proved itself during testing, with increased dead rise and sharper entry this model simply slices through the waves, parting the water like no other. The Velocity has a larger high front cast deck with an abundance of storage within the hatch. This model has two options with regard to the positioning of the console, that being to the side - sports model or centre with the console positioned towards the rear. Available in three model lengths, it is certainly a model to look at and take on board the full features as noted.

TROJAN & TROJAN HT - CABIN

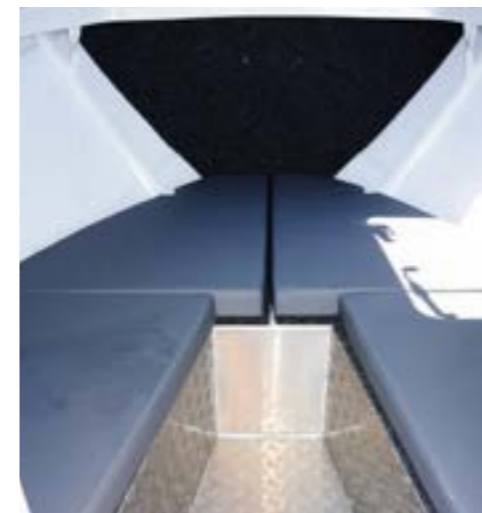

Sea Jay Aluminium Boats have taken the cutting edge SAMURAI HULL to the next level with the NEW TROJAN cabin boats that are a true off-shore fishing craft with long range capabilities. The latest generation SAMURAI HULL offers high swept bow section, reverse chines, capped keel and variable dead-rise on a wide body configuration giving optimum ride and performance with great stability at rest. The spacious lined cabin has loads of storage space for fishing and safety gear with V berth bunks to accommodate even the 6 footers. If you're serious about off-shore fishing, then the 630 Trojan HT and it's smaller 5.5m stable mate are made just for you....!!!

Warranty

Sea Jay Group Pty Ltd A.C.N. 141 380 298

This document states terms of the Warranty given by the Company in respect of products manufactured by it.

1. INTERPRETATION

In this document:-

- 1.1 "The Company" means Sea Jay Group Pty Ltd A.C.N. 141 380 298.
- 1.2 "The Purchaser" means the original person or entity of any boat sold through an authorised Sea Jay Boats Dealership.
- 1.3 "Boat" means any aluminium boat or accessory manufactured by the Company.
- 1.4 "Warranty Period" means the period of two years (24 months) from the date of delivery to the ORIGINAL purchaser.

2.0 WARRANTY

- 2.1 The Company warrants to the Purchaser that:-
 - 2.1.1 The quality of the materials used in the construction of the boat is in accordance with or above, the standard usual in the aluminium boat building industry; and
 - 2.1.2 The boat will remain free of defects during the warranty period.

3.0 WORKS UNDER WARRANTY

- 3.1 To obtain the benefit of the warranty the Purchaser must return the boat to its place of purchase.
- 3.2 Warranty does not cover any consequential expenses beyond the warranty repair itself. Eg. Freight
- 3.3 Sea Jay Boats shall not be liable for consequential loss of any kind arising out of the supply or operation of the Boat.

4.0 EXCLUSIONS

- 4.1 The warranty will not cover any defect or damage caused by:-
 - 4.1.1 Operating outside design limitations
 - 4.1.2 Misuse, abuse or negligence
 - 4.1.3 Normal Wear and Tear
 - 4.1.4 Use of a motor which has more power or weight than recommended on the compliance plate attached to the Boat.
 - 4.1.5 Improper Trailer fitup. Eg. Incorrect tie down of Boat to Trailer, no Engine support bracket and off road use.
- 4.2 Paint is not warranted against the effects of oxidisation, wear and tear, electrolysis or damage caused by fuel and dissimilar metals. This also includes normal oxidization around unsealed edges and fittings.
- 4.3 Factory fitted parts, fittings or extras are subject to a 1 year (12 month) limited warranty only. Such items

include:- Vinyl Wraps, Carpet, Upholstery, Pre-Rigging and Windscreens (including console screens) etc, etc.

- 4.4 Vinyl Wraps are warranted against defective application, NOT against Damage caused by solvent/petrol etc or damage due to misuse
- 4.5 Any alterations / modifications to the Boat once it has left the factory will void any/all remaining warranty.

5.0 COMMERCIAL USE

- 5.1 Due to the variance in usage and conditions which may be experienced, the Purchaser must be satisfied the intended Boat is suited for commercial applications.
- 5.2 This Warranty does not cover any boat which has been used for a commercial purpose.

6.0 EXCLUSION OF FURTHER WARRANTIES

- 6.1 Except as stated in this document, no warranty express or implied is given by the Company except any warranty which is implied by law.

General Maintenance

It is important to follow a few basic rules in providing regular maintenance to your new vessel.

- Always thoroughly wash your entire vessel with fresh water and mild detergent after use.
- A spray of a protective lanolin based product should be re-applied after washing, to all areas where dissimilar metals are fitted. eg. Any Stainless Steel fittings (Windscreen Bolts, Rod Holders, Baitboard etc.)
- If an accessory is fitted after market (not factory fitted) it is important to spray a protective lanolin based product to these areas where salt or moisture can be attracted.
- Leave your vessel permanently tilted to drain after use.

More Detailed information is available within our Owners Manual.

DEALER NETWORK

Our National Dealer Network will provide you with updated information and marketing of our product. As fishing and boating needs differs in various parts of our nation, our Dealer Network will provide the right product for their area. However if your needs call for a variation. Sea Jay have a range of optional accessories and fittings to meet your needs.

DISCLAIMER

As Sea Jay continues to make improvements to our product, we do reserve the right to change any details that are contained herein.

All specifications quoted are approximate and subject to change.

Please note that photos may show accessories or options that are not standard, please check the features for the standard options applicable.

For further information on the Sea Jay Model range please contact your authorised Dealer as Sea Jay Aluminium Boats do not sell our Pressed Range direct from the factory.

For more information, contact your authorised Sea Jay Boats dealer
